ROSEMARY'S BABIES

Rating: 6 stars

This band features Eerie Von from Danzig on drums & it was recorded in the 80's, so the sound quality is not as glossy as today's standard cd's, but overall, this is a great slab o' horror based punk rock, & the cd has 25 songs on it, but every song is sooo freakin' short it's insane! This cd basically gives you the core of everything Rosemary's Babies ever released as well as a live show to boot! If you like old school Misfits you'll dig the hell outta this cd!
