### WEEN :: SHINOLA VOL. 1

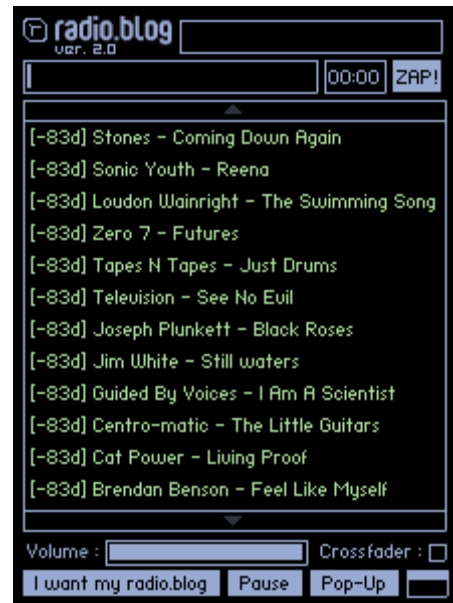

*"SHINOLA VOL. 1 is a collection of*

*odds, ends, and leftovers from around our studio and contains killer new mixes of a lot of songs that have been floating around. I don't mind telling you that it's a really great record. The record was produced and mixed by Andrew Weiss and Ween and it's an ugly one. You really wanna pick this up, I'm not shitting you."* -- Dean Ween

You either love these motherfuckers or you hate them. I very much find myself in the first category. The brothers [Boognish](#) have always captured on tape the weird sense of irony and humor I thought only existed in my head -- that is until I heard *Pure Guava* in the early '90s. Non-fans used to love to dismiss WEEN as a "joke band," which is ridiculous assertion if you've even paid the slightest attention to their chops. Whether experimenting lo-fi on a four track high on Scotch Guard or laying down slick funk jams in a "professional" studio environment, these guys invent and re-invent themselves and the boundaries of genre time and again.

SHINOLA VOL 1. is available on CD. It had previously been an online-only
