'Jann Arden a Work in Progress'

(Jann Arden / DVD / NR / (2005) 2007 / MVD)

Overview: Set against a backdrop of Janns music, this DVD is a portrait of a pop singer who steadfastly refuses to be stereotyped in an industry that thrives on image and hit singles. In this personal and revealing music documentary, Jann takes the viewer on her personal journey from her humble beginnings to her big break.

DVD Verdict: From the off it has to be said that after viewing this DVD, I am now a bigger fan of Jann's work than I was before! If there is a fault, it is that I wish there had been at least one full length concert song performed. What a joy to have the opportunity to see into Jann's life. For just a hint of the depth to which she has delved, her bio info is that this Canadian Superstar has sold more than two-million records, received countless awards, sold out numerous Cross-Canada tours, wrote two incredibly successful collection of journals, starred in her own CTV pilot, acted in a feature film, performed in the highly successful Vagina Monologues, produced her last two albums and wrote several Top 10 hits!! What a great artist. Long live Jan's music. This is a Widescreen Presentation (1.85:1) enhanced for 16x9 TVs and does not come with any Special Features.
