Ever long for the analog days of soundsystem culture when people had to carry more than a Macbook to a gig and the sounds weren't so thin? HeavyWeight Dub Champion not only provide deep dub sounds with dope MCs and live musicians but also bring literally tons of gear including analog mixing boards to their performances, utilizing the tools and ideas of dub in the studio but taking it to the stage and making it an integral part of the performance. Members Resurrector, Patch and Totter Todd collaborate with with likes of Dr. Israel, KRS-ONE and Killah Priest on their brand new cd, *Rise of the Champion Nation*, which is out now. This summer the band hits the road, crossing the States with Sly & Robbie and playing the festival circuit, check their myspace for updates.
