Various: Look At All The Love We Found LIVE A Tribute To Sublime (DVD / CD) Inakustik

One for Sublime fans really, who I must admit I'm not familiar with, but this various artists live concert is a tribute to the band, with a DVD of the concert and a CD of live and studio covers. The music ranges from acoustic to ska/reggae to indie metal to urban. There's interviews and music, videos too. Bands involved include Fishbone, Los Lobos, Unwritten Law, The Ziggens, Bargain Music and AWOL One. The music is too varied to be of interest of fans of a particular style, so unless you're a collector of one of the bands involved, it's of interest to Sublime fans only. Plenty of extras to make good value though.
