

by Chris Forbes

IGNITOR/Road Of Boges (Cruz Del Sur) This was some awesome power metal with one of the best female singers my ears have ever heard. She has an incredible voice and she sings the songs with a lot of passion and aggression as well and she fits the music perfectly. Speaking of music, the music is well crafted power metal with lots of melodies and the songs are so damn catchy and heavy at the same time. It is like the perfect blend of power and melody. 11 tunes and not a bad one in the bunch and as far as power metal goes it doesn't get much better than this. Incredible band. Info:
