Queen is one of the most inspiring bands from the 70's with their glam, theatrical, & campy elements both in music & image, & the bands front man, Freddie Mercury was the catalyst of that..he was flamboyant, openly gay, & very un-apologetic regarding his lifestyle & the excess that his celebrity afforded him. This dvd has loads of clips, concert footage, music videos, interviews, & it's a great anthology for an amazing musical force's legacy, & I've seen quite a few Queen documentaries, but this one might be one of the better one's on the market! There's a great quote from Freddie, when he was asked if his contracting HIV had slowed him down at all, Freddie replied, "My Darling, I don't give a f*ck! & that's pure rock n roll attitude! The saddest part of the dvd is the last portion that chronical's the last years of Freddie, & the way the program is done, although it's sad, it's not a tear jerker & that's what I really like about this dvd..it really celebrates what Queen was..a rock n roll phenomenon!
