I don't know any bands with this much talent that doesn't have millions of screaming fans or some arena to drive to via their tour bus!

Knock Out Kaine's Decision to put the quality of the music first backing that pledge with years of work has paid off! Perfecting their live shows and playing sold out shows on several continents Knock out Kaine is on track to greatness due to years of hard work and commitment.

Knock Out Kaine's unique mix of rock and metal has been brought to the masses the old fashion way live on stage!

This hard working European band from Midlands, UK started back in 2005 when the band won KERRANG!'s Best Unsigned Live Act in 2008 propelling the band into perpetual touring. Racking up an impressive list of accomplishments along the way Opening for a who's who list of acts playing 22 dates with Adler's new band – Adler's Appetite, Chris Holmes of WASP's, where Angels suffer on the UK leg of their recent European tour!

The band found themselves rocking the prestigious DOWNLOAD festival in 2011. Catching the worlds eye with their patented live show House of Kaine never lost site of the music! Believing and putting hard work first has lead them to where they are now in 2012! After a fierce whirlwind set of years of relentless touring, writing and recording the time is now for Knock Out Kaine and House of Sins to take over the world!

In 2012 the band took time off time touring to record the highly anticipated album House of sins recorded at Chapel Studios, South Thoresby. The band going all in putting their entire life's everything into self release their own album which was no small feat!

With industry legends giving props to the band like Legendary Ray Staff who's worked with Led Zeppelin, Sabbath, Muse, Cradle Of Filth who mastered House of sin's commenting, "I've been mastering records for a long time across many different genres. This was a particular pleasure for me because of the quality of the songs and the excitement of the production". Ray also goes on to say "There isn't a weak track on here" And we couldn't agree more!

Winning a slew of Contests and turning heads on many continents. Knock Out Kaine has carved their place on the worlds Rock and roll radar forever. Fast forward hundreds of Major Live shows later House of sins was born! Working the songs out live till they got it right!

The musicianship of this band is mind blowing! They are super stars of their instruments, powerful songwriters and capable of reaching any goal they set out achieve!

A good song is expected from any top band but to write an anthem, a mantra is rare. I whole heartedly became a true fan and listened to House of Sin's probably 100 times beyond what a normal reviewer would. Simply put I'm a big fan and it hit me instantly how big their sound was! So full of life House of sin's is Brimming with enough Rock energy to fuel the world!

The song Coming home is by far one of the top ten best songs I've heard from any band! Yes that's a big statement but the song is beyond incredible! The vocals by Dean Foxx on the House of Sin's can only be described as Perfection!

The song "Coming home" vocals are haunting, and render the listener helpless flooded by the rush of emotion the song evokes. Over taking ones senses coming home is packed with meaning and pure emotion! With an Inviting sincere timber the song "Coming Home" was born for the radio and is a Mantra beyond comprehension. All across the globe countries are at war, families have fallen on hard times! Loss is painful and Coming home speaks for the countless Brothers, solders, fathers, wives, families, mothers who've been broken, lost or struggled in these difficult days.

With Humanity Under attack to the very brink of what we can handle as a world "Coming Home" is the perfect song to offer up hope and speaks for a world trying to hold on! With so much division occurring in our everyday lives Coming home unites the masses enticing a sense of returning to that special place in each of us where love and home reside! I listened to coming home so much that I lost track of how many times I listened to it. The Amazing and Mind blowing self released album House of Sins is reflective of worlds best musicians forming a band that truly are musicians who love music.

Through out House of sins You can hear you can hear the bands Rock roots loud and clear! The diversity of the band is second to none. When I talk about Knock Out Kaine

I must mention they are better than most of the bands I grew up listening to over the years and I rank them with any band in the history of music they are that good!

Forward to the song Little Crystal it really Kicks! It has everything one would ever dream of having in a song! The melodic war little crystal wages really Set's

the tone for this album. Little Crystal holds a slew of musical moments that create a true Epic Masterpiece. I predict house of sins will climb the charts fast and Knock Out Kaine will never look back! Spoiler alert the Solo on Little Crystal is heavenly!

I won't insult the band by saying it's a 10 out of 10! It's one of the best albums I've ever heard any beyond any foolish scoring system. Anyone who knows anything about music will hear what this band has done and will hear the thousands of hours it took to create House of Sins. In that spirit I will talk a little about the album and the songs for a few to give you a front row Concert feel to the album!

The chorus reflective of the bands rock roots. Any true rock lover will love Liquor up! the solo is Note worthy As Jimmy Rip's it up paving the way for an album full of legendary solos! Jimmy is a rock god and there's really no other way to put it!

Little Crystal: This is where the band takes off into the stratosphere! Little Crystal consumes and addicts anyone who listens! I can't stop listening to it!

Little Crystal starts out with a cool keyboard effect making one feel like they're on a rocket breaking through the clouds a million miles an hour into space. Readying you for the ride of your life the song is covered in a cosmic guitar described only as guitar magic! The band pounds away leaving one breathless as you take it all in! Dean Foxx Jumps in with his stellar Vocal track driving your mind deeper into space! Little Crystal sends one on a journey deep into the rock universe to a place called "Little Crystal" and Damn does this song deliver! I really think nobody fully understands how good this song really is! Filled with mystique, packed with energy, melody, power, groove, killer vocals, memorizing backing vocals, thumping bass and Much more! A solo that takes you to another solar system! This is by far one of the best songs on the album competing with "Coming home" which is one of the best songs I ever heard! The song Little Crystal border on Allen in form for it's truly not of this world!

Set the Night on fire: Still coming down from Little Crystal Set the night on fire starts out with tribal type rock drums that set the mood for a slew drum beats sounding like thick wall or tidal wave racing at you! Dean Foxx vocals setting the mood like an auctioneer of your soul preaching to the rock and roll world the good word of rock! A high energy song that oozes with passion and confidence! The solo really jumps out offering Yet another tremendous solo by guitar savant Jimmy Bohemian who's guitar work on house of sins really shreds, shines and packs a knock out punch!

**Backseat Romeo:** Showing off the bands rock and comedic lighter side. The song's acoustic starts the song off with the Dean Foxx telling a spin of clever lyrics framing a steamy rock song about what can happen in the Back seat. Any true rocker knows how that story goes. The song is sexy, steamy and makes me think a billion naughty things. Backseat Romeo is a fun song with a solid groove. The highlight of this tune to me was the acoustic solo which was beyond snazzy! I must give up to the band for stepping out on a ledge and taking a risk with backseat Romeo's sound and direction! Refreshingly unique it's a cool tune with a big upside! A summer song full of great moments that won't disappoint and is sure to please!

**SkinStar:** I love the intro to this song! The bass playing of Lee Byrne makes this song stand out! SkinStar breaks into a blend of ups and downs! luring the listener into the smooth and intoxicating chorus! SkinStar flies into the Rock Night's sky strutting it's Melody taking you on a rock roller coaster ride! The guitar and rhythmic schemes make SkinStar a classic! The changes and groves layered through out SkinStar coupled with the flowing vocals give it a cosmic feel. The guitar mix and transitions make this song full of life and wonder! There are some real strong Rock moments featuring a private and personal break down where Dean and the band get to business exposing their souls and letting it all hang out. Notable Solo efforts through out the album! Jimmy's Guitar Performance on this album cements him as one of the best guitarist in the world! The break down on SkinStar is all pro with Strong vocal arrangements resembling works of the best bands before them!

**Coming home:** By far to me the best song on House of Sin! It's beyond a song it's a Mantra, an opus! They say a truly great song writes it's self! The greatest songs speak for the masses! Coming home is one of those Timeless songs that contains that human element that can't clearly be replicated or described! Coming home speaks for the world, for humanity, for Hope! I have no idea if the trials and tribulations of being on the road lead to the depths of coming home. How one man can pen such a masterpiece that encompass what a world is thinking and feeling is amazing! Coming home captures the Heartbeat, the very soul and essence of our beings. Coming home Chronicles the worlds journey as it struggles to find unity! Coming Home opens up with a very remarkable acoustic guitar followed by a sense of venerability in Deans powerful performance. Full of emotion and realness that is beyond rare. Coming home stands alone at the top of the summit of songs. There are millions of song written each year but very few mantra's, opuses and classics! House of Sin's can only be described as a Timeless masterpiece! The song Coming home is the best song of 2012. The song truly lures the listener in and builds the mood packed with unforgettable moments! One of the Ten best songs ever written in my mind and if that's brazen and forward it was meant to be! Coming home is that good and deserves to be describe exactly as the classic it is! The world needs "Coming Home" and needs it more than ever! This song solidifies this band as the best of the best! Give "Coming Home" a listen, give it a hundred listens for it's speaking for you, for humanity and the very state of the world we live in! A truly special song and it's timing couldn't any better!

**Going down ( She goes ):** All at once the band kicks in! Full of energy and up beat I love it! The vocals are bluesy and in charge! I'm Loving the grove and the beat! A hard rocking Tune from start to finish! Showcasing a really strong rock guitar riff and energetic chorus! The chants of "She goes down" Gets inside your head like a twisted lover! It's a nice departure from the rest of the album. It's a perfect song to get the woman onto the dance floor and keep them there! A perfect rock tune where the Drums bang and the guitar rocks! Brimming with life Going down makes you want to get up and dance! She goes down is the Perfect song to Slam a beer, dance the night away and just let loose! The bands Rock Roots really jump out in this song a welcome part of House of sins!

**Time:** The song starts out Sultry, sleazy, bluesy and Full of Sex and everything that's Hot! The vocals are very steamy are full of melody, grove and grabs the listener! Sure to provoke a riot and recruit a Lions share of groupies. The chorus moves and groves! Dean's vocals on time really drive it home! The vocal range, the grit and pure power of the vocals make one a believer! The hook in this song really rises the songs stock! Jimmy's solo takes you into the heavens! Mid way through the solo as you ascend into rock space few things in this world can relate! The break down is almost too much to take as they break it down yet again! Swinging into the chorus that haunts time is missing nothing! A bluesy fusion and rock soul this song not only grows on you but may be the strongest song of the album!

**Somebody save me:** Guitar fills the intro as the band jumps in setting up The Heartbeat that rings strongly through the verse. The chorus rings loud packing a powerful rock punch. A straight forward rock song sure to please the die hard rockers out there! The solo is big, the sounds of guitar fill up this impressive rock song!

**Moving On:** The band really jumped out and took a risk on this song! Opening up in perfect three part harmonies the song stuns and shocks me as the singer goes into what appears to be a bare naked ladies rant. Addictive from the very first seconds. The band showing off yet another side of their vast sound and ability. The song kicks showcasing a strong verse and powerful melodic chorus! Reeving to a flowing swing beat. The powerful vocal performance By Dean Foxx can only summed up as powerful and tantalizing! Moving on is a real treat to the seasoned music listener! Moving on offers a new sound and vibe rounding off house of Sins as a Dynamic and masterfully written album sure to be a classic and a must have!

I found the album to be so top end, so worlds best that it's beyond a diamond and more like a musical treasure. I got lucky to have the chance and honor to humbly attempt to convey what I heard on House of Sins! Knock Out Kaine is a one in a million band sure to reach and live out the rock and roll dream. The singer and his voice is unbelievable! I've watched him sing "Coming Home" live and he sounds as good or better than the studio takes which is the mark of a true top professional vocalist.

The songs on this album are top end with the guitar player's ability somewhere in the (Vito Bravo or Extreme/Eddie Van Halen) range or even beyond. Yes that's a very big statement but the tracks are filled with guitar riff after guitar riff that rocks! The solos really caught my attention as works of guitar art! Guitarist Jimmy Bohemian is a guitar virtuoso, a guitarists guitar player!

The best bass players in the business make the drummers drums sound bigger! A true top bassist makes the guitarist sound like an orchestra, the vocals sound like heaven and Lee Byrne Is one of the most solid bass players I've heard. His Solid performances on House of sins features some of the best bass tracks I've heard showcasing his selfless playing style. Lee Byrne is a bass players bassist and really does a knock out job on this album on the bass!

In fact I think I'm actually intimidated by my ability to convey how good this band is! The drummer Danny Krash laid down just perfect drums throughout the album! He's simply amazing! His fills and drum style accompanied by his endless attention to what each song's needs were beyond impressive!

The rhythm section rocked so hard I almost injured myself a few times rock-in out to this album with its fierce sense of Energy, groove and Pure Rock power! The songs and musicianship, over all quality of the recording and level of the bands big time sound has me convinced me that House of Sin is best album I heard in

2012! I've heard some really good albums by some future greats but this takes the cake! I really hope everyone becomes a fan and buys this bands album! Do see them live and help to spread the word! For a band to self release an album and to play at this level is haunting! If I could sell everything I own and sign this band to a record deal I would!
