The Goth Box is a terrific collection of Goth music videos Presented by Cleopatra Records (the name behind many great collections of music ranging from 80's Glam Rock to New Wave, Dance and Electronic). The Goth Box is the DVD companion to the Goth Box CD set and it includes not only 15 music videos, but also 12 bonus audio tracks.

The DVD opens with scenes from the classic Dracula/vampire movie 'Nosferatu' and the videos to follow are:

- 1) **Switchblade Symphony- Clown.** The stand out portion of this video is the excellent make-up on the band members.
- 2) **The Wake- Christine.** This is an excellent black & white video shot in a graveyard setting.
- 3) **Christian Death- Romeo's Distress.** Great live video with Rozz Williams (RIP).
- 4) **Nosferatu- The Haunting.** This is a mix of black & white video and shots of the bands performances.
- 5) **EVA O.- Children of the Night.** This is the worst live recording I have heard in a long time.
- 6) **Alien Sex Fiend- Ignore the Machine.** This is a trippy video, but would you really expect anything less from Alien [Sex Fiend](#)?
- 7) **Red Lorry/Yellow Lorry- Spinning Round.** I had never heard of this band before, they have kind of a punk/goth sound.
- 8) **The Prophets- Avalon.** This video starts with a close up on an acoustic guitar, doesn't seem very fitting for a "Goth" video!?
- 9) **Ghost Dance- Deeper Blue.** The singer has some great hair.
- 10) **Lords of the New Church- Open Your Eyes.** Interesting video. The lead singer of this band looks like he drank a little too much embalming fluid.
- 11) **The Chameleons U.K.- In Shreds.** This is a live recording.
- 12) **Skeletal Family- Lost in Paradise.** This video couldn't be any more 80's.
- 13) **Executive Slacks- Fire & Ice.** Main annoyance in this video... Over use of the smoke machine.
