

JONNY QUEST: THE COMPLETE FIRST SEASON
(HANNA BARBERA/DVD)

Soon all your childhood memories will be available for purchase, but for now Jonny Quest, the greatest action adventure cartoon of all-time, is here. Its graphic comic animation style influenced decades of cartoons—much like watching living comic books. The special features include: a featurette on the animators and on the show's innovation, facts and trivia, a video handbook, vintage TV commercial and original trailers. A fantastic DVD for a party or a lazy Sunday afternoon.

Well done indeed, at times a bit too real for my taste. Although, we should probably get Oakey a Netflix membership for Christmas. www.risemovie.com
