'Stranglers - Live 1978 in San Francisco'
(DVD / NR / 2005 / Music Video Dist.)

Overview: The classic 1978 line-up of the UK's best art punks; this is the Stranglers captured live in San Francisco on their first US tour. Culling material from their first two albums, this highly in demand program is finally available on DVD. 30 minutes of challenging, high energy chaos from one of the best of the first wave of British punk rock.

DVD Verdict: Oh dear, oh dear, oh dear! And believe me, I LOVE The Stranglers and always have done, but this 30 minute DVD has terrible sound, even worse video - mostly black and white, if not grey! - and the music is so muffled and distorted you just keep having to stick your fingers in your ears and waggle to see if it's your malfunction! In all truth, this is akin to an old-fashioned bootleg VHS, quality wise, all the way from the opening to the close! Get 'Alexandra Live' and the hits DVDs before you consider this ... unless you're a diehard fan and in that case, you'll love it to death! This is a Full Screen (4:3) Presentation.
