Government Issue Live 1985 DVD (MVD)

The closest I ever came to seeing [GI live](#) was sitting on the couch next to John Stabb at a house party twenty years ago. He seemed a bit too skinny and haggard to be alive, but they had been on tour so it wasn't unexpected. I was too young to get into the club, so I had to settle for this brush with celebrity, which is a damn shame. Live 1985 pretty much confirms that I missed out on a great show. No wonder everyone was nuts for GI after they came through. The DVD contains two different California shows from a couple months apart and is must-have for hardcore collectors (of hardcore).
