Government Issue "Live 1985" (MVD)

As good as being there.

I always wonder where footage like this comes from. 20 years, this has been on a shelf. When I see videos like this, it always makes me wonder what other videos are out there about. Lucky for us, someone remembered they had this laying around. I do remember my favorite line-up that the band had (*inert yet another J. Robbins plug from the past*) is amazing! It is filmed well, and the picture quality is perfect. It's so great to see the nuts. I never got to see GI, but watching this DVD comes close. Definitely worth the money. www.musicvideodistributors.com
