Record Label: [Music Video Distributors](#)
Reviewer Name: Ray Harkins
Review Date: July 30, 2005

CONTENT

No hype at all would do Turbonegro justice. This band is one of the best rock and roll bands to exist today and will go down in the punk rock history books as a pioneer of "death-punk", a term that they have coined and perfected.

This DVD chronicles their return to glory as the band broke up shortly after 2000, but then ResErected themselves in 2002 after many pleading fans on a worldwide basis. Basically this is chock full of information, behind the scenes, the bands mentality (we will give you 50%, maybe 60%), and live footage that you can shake a stick at.

This is one of the best DVD's out there right now for fans and new listeners alike. It will give you a glimpse into the massive world that is Turbonegro.
