**the brady bunch: the complete first season**  
 paramount pictures  
 10 hours, 52 minutes  
 ★★★★★

We weren't sure about a strictly Brady collection, but it was worth watching just to hear the soon-to-be Mrs. Brady say to her nerve-wracked husband, "Why don't you take a tranquilizer?" in the show's first episode. Hey, it was the 60s.

Aside from including every show from the first season – with commentary – the collection comes with a short, behind-the-scenes featurette. Cool fact: Bobby was the last Brady cast (Mike Lookinland, who got the part, had to continually dye his red hair darker for the part). And you'll never guess who was supposed to play Mike Brady.

Whether you're a fan of the Bunch or not, the complete first season is really a piece of history. Or at least a good gag gift for that immoral friend of yours. What's her number again?

**turbonegro: the reserection**  
 bitzcore  
 110 minutes  
 ★★★★★

The insane Turbonegro rockers (let's just say they've been known to put fireworks in strange places, OK?) reformed in 2002 and took their costumed, vulgar selves back out on the road.

The "rockumentary" on this DVD, however, is about the group's life at home, but it's in a Norwegian language, so it's subtitled. Those who aren't fans of reading might want to skip ahead to Turbonegro's live shows from 2002 – the Quart Festival, "Rendezvous With Anus" and "Hobbit Motherf--kers" – since the band sings in English.

More importantly, no matter what anyone else says, Turbonegro's lead guitarist can really rip. Did that sound gay? Who cares. Anyway, you guys are going to have to be really convincing to get us to give this one up. Give it a try anyway.
