## Desdemona

### Live 3.0

By Monica S. Kuebler

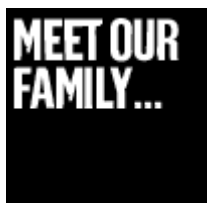

February 23, 2006

Desdemona's first DVD offering, Live 3.0, complements their 2004 album of the same name; it features a 12-song (plus intro) concert that clocks in just shy of an hour and a well-rounded bevy of extras. The disc, which allows viewers to chose between Dolby 2.0 and full 5.1 surround sound, packs on three bonus audio tracks, one bonus video, an eight-part, 13-and-a-half minute subtitled interview in their native tongue covering the group's origins and member changes right up to the creation of this DVD, biography, discography, photo gallery and even some desktop images. The concert footage is clean and crisp, and that, combined with the selection of bonus materials, makes this DVD release rock-solid. (Metal Mind)
