MICHAEL SCHENKER GROUP *Live In Tokyo '97*

MVD

Rating: 9 Out Of 10 - Reviewed by Bam-Bam

Holy Shit!!! If you're a fan, this is a must own!!! This DVD has EVERYTHING you could possibly want including a ton of old **U.F.O.** stuff and even a couple of **Scorpions** classics. You get a full thirty songs, some of which have never been recorded live, recorded live in Tokyo on March 19th of 1997. You also get bonus footage of the *The Unforgiven World Tour* that was filmed in Japan in 2000. The **MSG** band is shit hot for both tours, including drummer Shane Gaalaas (a monster), bassist Barry Sparks, and singers David Van Landin and Leif Sundin (killer!!!). You'll even enjoy some rare interviews and killer close-up footage of the Flying-V Master himself throughout. *Live In Tokyo '97* is one of the most complete DVD's I've ever seen a company release on a band or artist, so collectors and historians will be very pleased as well as the rabid Schenker fan base. Can't speak highly enough of this one. Run to your favorite store on July 12th or online at WWW.MUSICVIDEODISTRIBUTORS.COM and pick up your copy! This one is Very Highly Recommended!!!
