

THE MICHAEL SCHENKER GROUP/Live in Tokyo (Metal Mind) DVD

Holy shit is all I can say. 40, yes I said 40 tunes are here. 30 are from 1997 and 10 more from a bootleg in 2000. Michael does songs from his UFO, Scorpions and his solo stuff and he sounds and plays fantastic. There are 2 singers on here and both more than hold their own. I was surprised to see Michael did some songs from his re-union release as he throws in "Pushed to the Limit" which was a pleasant surprise to me. A 236 minute DVD and worth every penny and is an awesome release and a must have if your a fan of quality music. Unreal.
