## **MURPHYS LAW** **Up With Us Down With Them** MVD

Murphy's Law is one of those bands I had heard a lot of good things about back in the day, but really only knew a song or two from a comp. I liked what I had heard in the past so I was excited about this DVD. It would be safe to label these guys as NYC hardcore, but really this is just good old fashion, boots to the teeth, punk rock. They aren't screaming like everyone usually associates with hardcore these days. This is more like Black Flag. Murphy's Law seems to really be enjoying what they are doing which goes a long way with their fans. The crowd interaction is good at both venues but I personally prefer the song selection on the second part of this DVD from their Pennsylvania show. These songs just seem to have more of a rock element in the guitars to them than the first portion. Overall, if you like the older influenced music then Murphy's Law is probably for you. If you are into the newer more radio friendly punk rock then I'd say take a pass on this. (JK)
