

MURPHY'S LAW- UP WITH US...DOWN WITH THEM DVD

If you haven't seen MURPHY'S LAW live yet it's imperative that you do. They don't come over to Europe all that often but whenever they do, I'm excited as hell from the moment I know they're coming. They are like no other band- especially hardcore bands, they are pure fun. Actually, make that FUN. It's like you're in a room with a bunch of close friends who just wanna play music they like, drink, smoke and fuck around...it's the best time. I have so much respect for MURPHY'S LAW because hardcore has changed throughout the years and the fun has really been watered down and the whole scene has turned so serious but they always stuck two fingers up at that and even when the whole SXE thing was in full swing MURPHY'S LAW were there with their 'Green Bud', 'Beer', 'Crucial Bar-B-Q', 'Bong Song' etc A huge 'fuck you' to all the serious posers. This DVD captures MURPHY'S LAW in full effect - the chaos and the fun, the smoke and the silliness...fucking fantastic. The coolest thing is that MURPHY'S LAW are still tough guys without having to pose around and act macho...the emphasis is always on the good time. Jimmy is just so in control of the crowd and the band is so confident that the whole experience is a pleasure to watch and be a part of. This 18 song set from New York City's Continental and Rex' Bar in Pennsylvania throws you straight into the centre of the revved up band and crowd with one single objective: FUN plus there's a bunch of bonus tracks from other shows and Jimmy Gestapo's pirate birthday bash so get some beers, some smoke and some friends round and have a blast with MURPHY'S LAW.
