This DVD is the ultimate document on the "original lineup" period of one of Prog Metal's most influential bands... **Voivod**.

The DVD includes loads of live material, filmed at Montréal's Spectrum. The sound and filming are of very good quality and it is very interesting to see how much the spectators went wild at these concerts.

**Voivod** was a great studio band, but really fully flourished in a live setting. There are also recording sessions, videos and many more interesting features included on this DVD, making *D-V-O-D-1* a "must have" for any **Voivod** or Metal fan.

With the recent death of Denis "Piggy" D'Amour, the band's guitar player, many will be moved while watching him perform on this excellent document. A just tribute for a great musician indeed. Again, many thanks to the people at MVD for making such a product available to music fans.
