Rating: 6 Stars!

It's very sad that the first ever Voivod DVD had to come out after the passing of guitarist Piggy, BUT, on the bright side, this DVD truly reflects on just how great of a band Voivod truly were! This DVD is the first of many to come out over the next year or so & this DVD focuses on the 1983 - 1991 era of the band & it shows the band's original line-up in all of their glory! There's all of the early music videos & it's funny to watch the really early ones like "Voivod" because it's just so cheesy & the production is very 80's! The concert footage is all stellar..it brings to life the band's stage presence & it also shows their musical growth, because initially the band was extreme thrash metal that was pretty hardcore & as time went on the band developed their sound & I would say that they went a little more progressive at times. This DVD is a must-have for Voivod fans..it truly packs a lot of punch & if you have trouble finding it in your local retail stores you can get it at [www.mvdb2b.com](http://www.mvdb2b.com)
