ANDREW WK WHO KNOWS?

MVD

God I loved this guy, he had boundless energy and just about the most positive attitude of any rocker. When you saw him live, you got one of the most amped-up, high energy, good times you've ever been witness to. Now, the vaults have opened and you get a smattering of some of the best live performances from 2000 to 2004. All the hits are here, including "Party Hard," "We Want Fun," "I Get Wet," and "It's Time to Party." 16 cuts in all, plus 5.1 surround sound, special features and bonus footage.

THE CROWN 14 YEARS OF NO TOMORROW

Metal Blade

I've been a metal fan for a loong time. It started with Slayer, Metallica, and Carcass, and has included everyone from Slipknot to Fear Factory. With the exception of Slayer, no one has EVER hit me harder than The Crown. Sadly, they've called it a day, but we've been blessed with a most fitting epitaph – a triple DVD that contains a wealth of content. Disc one is a documentary, getting all the behind the scenes looks at what made and drove them, and does not pull any punches. Disc two is jammed with four live concerts, some with ok audio and some with fantastic quality, from smaller shows to huge European festivals. Disc three is a bootleg compilation, and all in all you get almost 60(!) live performances of some of the best metal the world will ever know. Seeing how adept they were at delivering blistering speed and tightness is mind blowing. RIP, my friends.

MEGADETH ARSENAL OF MEGADETH

Capitol Records

This is the absolutely the most comprehensive, exhaustive collection EVER put onto DVD. 2 DVD's to be exact, as there isn't any way they could have fit all of it onto one. You get the motherload, 20 videos including "Peace Sells," "In My Darkest Hour," "Anarchy in the UK," "Holy Wars," "Go To Hell," and tons more, some that we didn't even know existed. There's rare concert footage that has never seen the light of day, including Clash of the Titans and Gigantour clips, and a rare acoustic performance from Argentina. Also included are interviews culled from 12 years, TV appearances, promos, candid on the road clips, unseen material from Dave's personal stash, and hidden treasures of Megadeth in rehearsal and on the video set. Needless to say this is a must have for any fan.

MOTORHEAD STAGE FRIGHT

SPV

These guys need no introduction, they are one of the very few bands still standing and still true to how they started. This 2 disc collection is a mind blowing 245 minutes of footage, and is packed with TONS of extras.

There has never been a more complete package released for these mega-ton rockers, who seem to be in the prime of their life. Set includes classics "Ace of Spades," "No Class," "Overkill," and "Killed By Death," plus new songs and a rare performance of "Dancing On Your Grave," all in 5.1 surround sound, filmed at a packed house in Germany (and you know that crowd is crazy.) Extras comprise multi angle feature, audio commentary, an LA special, making of footage, road crew spotlights, a slide show, and the infamous back stage rider. Disc 2 doubles as a CD ROM and has even more stuff like ringtones, wall paper and a slide show. Don't own this? What the fuck are you waiting for??

THE PSYCHOBILLY SICKNESS EPISODE I

Hairball 8 Records

What is psychobilly? This will tell you everything you need to know. The "Sickness" is a sub cultural documentary that details how it all started, who's who in the scene, what's behind the fashion, and contains tons of cameos. The list is long, but the highlights are Concombre Zombi, Nick 13 from Tiger Army, The Coffin Kats, The Meteors (they started it all,) Phantom Rockers and The Flametrick Subs. Within the hour you'll also get a collection of interviews, photos, and live footage. This genre of stand up bass, 50's nostalgia, dark humor and tattoos is here to stay.

GOD SAVE THE QUEEN A PUNK ROCK ANTHOLOGY

MVD

And when they say punk, they mean the real deal. This is a collection of 20 of the most influential artists that shaped the scene back in the day. You won't find all of this together on anything else – Re-live the anarchy with Dead Boys, UK Subs, Germs, Iggy & The Stooges, The Adicts, Buzzcocks, Exploited, Subhumans, Generation X, Toy Dolls, GBH, Sham 69, and more. There is also a rare spot of Marky Ramone speaking about his legendary band. Although watching this will make you yearn for the good old days of punk rock.
