V/A- GOD SAVE THE QUEEN: A PUNK ROCK ANTHOLOGY- MVD- A patchwork batch of 20 songs by mostly old school U.K. punk bands from the late 70's/early 80's. Some of my favorite stuff on here is The Germs doing "Media Blitz" (Darby isn't singing but more like growling), The Buzzcocks ripping through a live version of "Boredom", Billy Idol preening for the camera both live and in a backstage interview in the Generation X tune "Your Generation", and The Dead Boys blowing through "Sonic Reducer." Other highlights include a Marky Ramone interview plus videos by The Exploited (why hasn't Wattie been killed yet?), Subh! umans, X-Ray Spex and 2 older UK bands that passed me by back in the day and I need to hear more of : Chelsea and Blitz and lastly, where is the Anti-Nowhere League's "So What" ???
