BUZZCOCKS- LIVE AT SHEPHERDS BUSH EMPIRE 2003 MVD/SECRET FILMS

It's odd to think that the Buzzcocks have been around much longer in this incarnation than they were in their original one and have made music in these recent years that has been almost as classic as their early (brilliant) stuff. The 2 main guys, Pete Shelley and Steve Diggle are still here (bassist Tony has been around for along while too ,not sure about drummer Philip Barker). Anywho, of course you get to hear all of the hits ("Promises", "Orgasm Addict", "I Don't Mind ", "Love You More", "Fast Cars" and about a million others). The thing about the Buzzcocks is that even their recent stuff is terrific as well and they still put on a great live show so pick this one up and while you're at it, pick up a copy of their (terrific) new record , FLAT PACK PHILOSOPHY as well.
