

THE BUZZCOCKS

'LIVE AT SHEPHERDS BUSH EMPIRE 2003 DVD'

(MUSIC VIDEO DISTRIBUTORS)

Recorded 3 years ago, now released as US DVD release, the concert the legendary UK Punkrockband THE BUZZCOCKS gave in London is one to see if you're a true follower of classic late 70s Punk, because this band was one of the leading bands. In total 32 songs were played that night, which can all be seen on this professional DVD, which also contains a lot of bonus material, such as interviews, biographies and backstage footage. Definitely a must-have for any BUZZCOCKS or Punkrockfan in general. With a playing time of 205 minutes it will easily fill up an evening of good quality Punkrock.
