

ROCK STARS FOR HIRE

The Butterfly Ball -A Film by Tony Klinger (MVD)

One of the best reason's to view this DVD is the fact that Twiggy is taking apart of this wired, adventurous, musical tale of animals? Twiggy is one of the judges on America's Next Top Model. This DVD also features many other musical stars. Vincent Price narrates this story bases on the book "The Butterfly Ball and Grasshopper's Feast." This is an acid drained musical experience, with lights, cast, HUGE musical production and wired stories about bears, grasshoppers, moles and other woodland creatures. I don't get this? Before my time I guess.
