Metal's Darkside Hard and Furious

Vol. 1

Metal's Dark Side Hard and The Furious Volume 1 has come available and is definitely an off-color, outrageous, promiscuous video. How can't it be when it is hosted by the sexy, demonic Jasmin St. Claire? The DVD is loaded with uncensored videos, and interviews with metal legends, Cannibal Corpse, Decency Defined, Death Angel, Thicker Than Blood, Satyricon and many more.

Jasmin isn't afraid to ask any question however she also plays silly games and gives commentary that would cause any parent to cringe. Her thoughts on education, Satanism, and politics are discussed at length while she takes a bubble bath. The venues she covers are from L.A. to Denmark and she definitely loves brutal black, death metal and any fan that feels strongly about that genre will simply love the video selections. The DVD includes a tribute to Dimebag Darrell that is intense and one of the last interviews ever given by gamelan. I recommend the DVD for adults that love the idea of a sexy female spinning non-stop killer riffs and growls. Mature audiences only.
