Metal's Dark Side, Vol 1: the Hard and the Furious

2006, *Magick Records*

by [Aaron Harraman](#)

This DVD, as the title suggests, is all about Metal, Death Metal, and Heavy Metal. Hosted by Jasmin St. Claire, the DVD includes interviews, videos and behind the scenes looks at some of the heaviest of the heavy. Jasmin interviews the likes of George Fisher of Cannibal Corpse, Death Angel and Nevermore. Yet the highlight is an interview with Damageplan, pre-Dimebag shooting. This was one of the last interviews.

However, the tribute to Dimebag isn't that good. It is made up of stills of him playing with Damageplan. I would have liked to see a 20min mini-rochumentary on him involving Pantara as well as Damageplan and maybe some live footage.

Overall, Metal's Dark Side is an interesting view and will be loved by fans of heavy music. Just be ready for a let down at the end.
