

Metals Darkside Vol 1. The Hard & the Furious

Metal, Metal and more Metal fill the contents from the first installment of the DVD Zine Metals Darkside. Jasmin St. Claire brings to the stage some hard hitting Interviews, roaring music as well as a sexy installment entitled Jasmin's Corner where we find Miss St. Claire surrounded by bubbles telling it how it is!

The Interviews Include: Cannibal Corpse, Death Angel, Hisma and Damage Plan. I must say each was a true gem in it's own but without a doubt Damage Plan did it for me. I, like most cannot forget Dimebag Darrel and watching the interview was a bit hard without his presence. Although, a well dedicated tribute to Dime was added to honor the memory of a legend.

Technical: The overall all is not bad at all; there are some points that could have used more content as well as a few audio/video issues here and there. The menu is fully interactive allowing Jasmin to be your host. The DVD comes equipped with a bad ass intro and lots of rad imaging to feast your eyes on.

While some folks may find the DVD itself a bit underground we tip our hats to a great first run of we hope to be a long series to come.

MetalEvolution gives Metals Darkside 4 out or 6 Skulls!
