

***Metal's Dark Side: The Hard And The Furious Volume 1***

This series will present metal artists that don't have many opportunities to be heard on specialized TV channels, artists of *death*, *black*, *thrash* and *speed metal*. Hosted by the sexy **Jasmin St. Claire**, this first volume includes interviews with members of **Cannibal Corpse**, **Death Angel**, **Satyricon**, **Nevermore** and **Damageplan**. We can also see videos (the uncensored versions) of those bands, plus a tribute to the late **Dimebag Darrell (Damageplan, Pantera)** and a preview of the volume 2 of the series. With 80 minutes including the bonuses, this is only a brief view of that large music genre, but the coming volumes will certainly complete the picture. For the fans of the genre only.
