

**SBB 'LIVE IN THEATRE 2005 DVD'**  
**(METAL MIND PRODUCTIONS)**

Another long running DVD of the METAL MIND PRODUCTIONS label. This time it concerns the release of the legendary Polish Progressive Rockband SBB. Their DVD 'Live in Theatre' contains a full concert, which was recorded in late 2005 in Katowice and besides the concert also an audio CD of the concert is included here as a bonus. All together a nice package from this legendary band, which has been very important for today's big Polish Progressive Rockscene. Maybe the band is not as good as some of the newcomers, RIVERSIDE, QUIDAM and SATELLITE, they are surely a very important band in Polish music history.
