Poison: Seven Days Live

2006, Music Video Distributors and Cherry Red

by Aaron Harraman

At the height of Glam Rock or Hair Metal, which ever you prefer, one band outrocked the rest. Poison, love 'em or hate 'em, they are still leaving a mark on the music world.

Seven Days Live was recorded in 1993 at London's Hammersmith Apollo. While there are many classic Poison hits featured on the DVD, the classic line up is not. This was part of the Native Tongue support tour, so at this point C.C. Deville was out and Ritchie Kotzen was in (who was soon after replaced by another guitarist).

Different line-up aside, this is still an enjoyable DVD to watch. Even casual fans will get caught up in the spectacle of the show. You will be singing along to all the classic hits like "Talk Dirty to Me" and "Every Rose Has Its Thorn".

The only thing I didn't like about the DVD is the lack of special features. This is a fun DVD none-the-less. Sit back and enjoy
