MVD

The biggest and the most prestigious metal festival in Central-Eastern Europe gets its own dvd release... *Reviewed In-Brief*

Describing itself as 'the biggest and the most prestigious metal festival in Central-Eastern Europe' already gets things off to a bad start, with a line up that makes Apocalyptica the headliners kind of tells you all you need to know about the actual importance of this as a metal festival rather than the location of the actual festival. With 27 tracks performed by 11 bands over the DVD, it's a delight for any of the bands fans, but with most of the bands being virtually unheard of here it'll turn into more of a curious view for most, the added CD with the 'smaller' bands even more so. The DVD includes detailed info about all bands (biographies, discographies, web links), photo gallery, festival history, 4 downloadable desktop images, and short interviews with all main stage bands featured on the DVD, so perfect if you like any of the bands featured!
