Somewhere hidden in the dungeons of the underground goth scene you can find Tiamat. Their music is calming, inspiring, dangerous.

I was sad that my favorite song, "Prey", was not on this DVD, but I will survive. I was also sad that the wonderful female vocals on many of these songs weren't included in this live recording, yet again I will live.

On this DVD, you can watch Tiamat perform live in Poland, see video clips and even the animated video for "Do You Dream of Me".

Just one fair warning before you enter: Once you join *The Church of Tiamat* there is no turning back. Muahahahaha....
