### **TIAMAT/Church Of Tiamat DVD (Metal Mind)**

I am not the biggest fan of this band, but this is a very good DVD. The production and the screening are top notch to say the least. This is from concert in Poland and the quality is fantastic. You can see and feel the band get into this as the concert went on, If your a fan of the band, you'll want this. In addition to the concert, you get a 13 bonus video clip featuring the history of the band, which features some really old stuff from like 10 years ago and even a clip of their 1st show from 1990. Almost 3 hours of music is found on this. Info:
