**Artist:** The Dwarves  
**Title:** "FEFU - The DVD"  
**Label:** Music Video Distributors  
**Release Date:** 9/26/2006  
**Genre:** Hardcore/Punk

**Rating:** 3/5

**Written By:** Ken Pierce (copyright 2007) for PiercingMetal.com

Now here is a DVD that fans of that very abrasive and very politically incorrect band The Dwarves will just eat up. Its main reason for existing is to promote the mini-film video for their song "FEFU", which means "F\*\*k, Eat and Eat". The band includes two versions of the song with one being dirty and the other "clean"; I must stress that this is for mature audiences only since the dirty version indulges the viewer with dozens of naked Suicide Girls, who are of course drenched in blood for good measure and added shock value I am guessing. The song itself is rather simplistic, but has an appealing industrial-mixed groove to it. The clean version only omits the cursing and limits but does not delete the amount of topless dancing. The cursing is replaced by erotic moans of pleasure, so I am not too sure how clean that actually is. The video was directed by Bob Sexton and they include a making of the video which comes from the "Dwarves Must Die" album. Obviously banned based on its content, the "making of" feature also gives the viewer a lot more Suicide Girls.

Beyond this video is perhaps the piece that will appeal most to the bands fan base as there is over an hour of rare performances that were filmed over the course of the bands career during the years 1985-2006. The break the segments up into "Early Years", "Live Footage" and "Interviews" and as I watched this I was pretty sure I was seeing footage that a lot of their fans had only heard about. Some of the live footage is very simple in the manner it was shot, and it's clear that a friend of theirs or audience member was the one doing it. Either way, it's included for your enjoyment and shows you just how raw the band was in its early days. The band has gone through a number of lineup changes over the course of their career but viewers will still be able to enjoy the core members of Black Dahlia, He Who Cannot Be Named, Fresh Prince Of Darkness, Wreck Tom and Clint Torres. Despite my limited background on the group I was able to enjoy it as a historical piece of Hardcore culture and I think the fans of the genre especially will be able to take a lot of pleasure out of this. As the press copy said "this is a must have for Dwarves fans, or for anyone that loves hot naked chicks covered with blood". With that I admit I am done.
