### The Dwarves Fefu The Dvd

*Fefu The Dvd*

**Lords of anarchic pop punk get their comeuppance on DVD release....**

As the filthiest, shit stirring anrcho pop-punkers The Dwarves have carved out an intimidating career for themselves, and whilst the media's focus maybe somewhat neglecting them, they're still ading to their myth, entertaining crowds around the world, and doing what we all want to do, screwing with Josh Homme's mind! So a DVD release should serve as a great reminder of what a truly revolutionary act The Dwarves are, but it's not quite the glory lap the band deserve, the assorted live footage helps set the story, and the backstage stuff gives you enough to sink your teeth in, but for a band with such an exciting history and amazing catalogue it doesn't quite do them justice. A great release for fans, but not quite the DVD the band deserve!
