

THRASHER

January 2007

Just got a video of the **Dwarves**' "Fuck, Eat and Fuck You Up" featuring the Suicide Girls. It's more blood, sex and rock 'n' roll as you've come to expect from the Dwarves, and this has some bonus footage, including some old footage of the band, a few old videos, some interviews, and more. The "FEFU" video comes in censored and uncensored formats, and if you've ever wanted to know what it would look like to see Blag Dahlia make out with a three-foot-tall midget stripper, this would be the way to do that...
