

[Hated: GG Allin & the Murder Junkies](#) *(Special Edition)*

Punk rocker GG Allin (1956-1993): Not a nice man. He assaulted audiences with most of his bodily by-products and -- at least when the cameras were rolling -- took the same attitude towards friends and lovers. This special edition of the cult 1994 doc includes temporary tattoos, a copy of a John Wayne Gacy portrait of Allin, and commentary from director [Todd Phillips](#) ([Old School](#)). A must for anyone who thinks punk is the bassist from Fall-Out Boy.
