The Queers Are Here Again

Tuesday January 02, 2007 @ 06:00 PM

Veteran punk-pop band **The Queers** will release their first DVD and a new album next month.

The Queers

The group formed in New Hampshire in 1982, but singer/guitarist Joe Queer is the only original member left. "It's been about 20 years since the first seven-inch was released, so we figured it was time for a DVD," he says of *The Queers Are Here*, which will arrive in stores on Feb. 20 via MVD Visual.

"Besides being able to play with so many great bands, it has been awesome to make friends all over the world from Japan to Brazil to Europe and beyond."

The DVD features on-stage footage of the group's various lineups from 1993 to 2005. It also packages together interviews and music videos, including a previously unreleased animated clip.

The Queers' new studio album will be titled *Munki Brain* and should come out in February through Asian Man, but few details aside from that have been released. Asian Man also plans to reissue the *Beat Off* and *Move Back Home* LPs, which were originally released by Lookout in 1994 and 1995 respectively.

Fans should be given a taste of both new and old material when The Queers play some Ontario and Quebec dates this month with **The Heart Attacks** and **The Riptides**. You can catch them here:

- Jan. 13 London, ON @ Call The Office
- Jan. 14 Toronto, ON @ Reverb
- Jan. 15 Ottawa, ON @ Maverick's
- Jan. 16 St. Hyacinthe, QC @ Le Trash
