Mission of Burma

Not a Photograph: The Mission of Burma Story (MVD)

By Mollie Wells

Nov 22, 2006 [Print Article](#) | [E-mail to a Friend](#) | [Paginate This Story](#)

With his 2001 book *Our Band Could Be Your Life*, rock scribe Michael Azzerad officially etched the Mission of Burma story in stone. But the band's tale never grows stale. Battling commercial indifference as well as guitarist Roger Miller's intense tinnitus, MoB sold few records in the early '80s, yet became one of the most important and influential outfits of post-punk era. Culling footage from the Boston group's 2002 reunion, *Not a Photograph* digs deep into a distant past and successful resurrection, validating along the way what true diehards have always known: MoB rocked like no other.

Show Details

Who / What:
Mission of Burma
Music Genre:
Rock & Pop
