

THE MENTORS/EI Duce Vita DVD (MVD Visual) I always loved The Mentors and there funny lyrics. This features some videos of some of their songs and though the quality isn't great, they are super funny and remind once again why I liked this band and thought their lyrics were out of this world. You also get 3 live shows from the band from the 90's complete with girls dancing and the black hoods. There is nudity in some of the vids and if you have forget this band, I am sure this DVD will bring back some memories and some good laughs. Info;
