(MVD)

This has 2 shows from the band, one old and one new. The show from 1984 is raw, way raw, but it shows that the band are not some fly by night project as they are still around over 20 yrs later. The leather and spikes and blood look was the big thing back in the day. There is also some cable show videos and interviews as well. This shock rock/metal band has been around a long time and I really liked the old stuff, but overall the DVD was a nice view. Info:
