Type 3 Media DVD Reviews**Tim Buckley: My Fleeting House**

Release Date: May 15, 2007
[Mvd Visual](#)

**Review:**

This is a collection of videos from **Tim Buckley's** live performances, including thirteen full-length songs. The footage spans his entire career, from 1967 to 1974, and includes previously unreleased video of Buckley on The Steve Allen Show (1969) and on WITF's The Show (1970). This DVD also features interviews with Larry Beckett (co-writer of many songs with Buckley), Lee Underwood (Buckley's guitarist) and David Browne (author of *"Dream Brother: The Lives of Jeff and Tim Buckley"*).

The footage of **Tim Buckley's** performances is stunning. It's hard to imagine that the footage is 30 to 40 years old. The video footage was meticulously restored to look and sound terrific.

The commentary on the DVD provides detailed insight into Buckley's life as a musician. It would have been ideal to hear commentary from more band members and others who knew Buckley, but there's already so much information and music to digest, adding more may have been too much for one release.

The DVD extras include an album by album commentary by Lee Underwood and Larry Beckett. Their views on Buckley's music and career are at times surprisingly disparate. And, Larry Beckett's candor can be quite amusing (though possibly not intentionally so).

It should go without saying that the best thing about this DVD is being able to watch **Tim Buckley** perform. It's very interesting to witness Buckley's growth as a musician and song-writer over time. This is a great presentation of Buckley's work for both those just discovering his music and long time fans.
