

The Jesus Lizard - *Live* (DVD): I know next to nothing about this - it just appeared on the release list and I hit "buy" because I love me some Jesus Lizard. What I do know is this: 1994, Venus De Milo in Boston, bonus of 5 songs from CBGB's 08/29/92. The rest is up to your imagination until this is in our hands, but I would guess that singer David Yow gets pretty freaky, and that should be pretty entertaining.
