

HIP HOP TIME CAPSULE – THE BEST OF RETV 1993

While today's artists seem stuck on portraying the high-life, this was not always the case as shown by this fine DVD that takes us back to the grimmer days of 1993. With street-based videos from the likes of Redman, Naughty By Nature and Kool G Rap going head-to-head with the West Coast swing of Dr Dre and 2Pac, this era certainly set things off for Hip-Hop to move on to bigger things. With interviews, videos, live performances and behind the scenes footage, this trip down memory lane is a real treat for those old enough to have seen it first time around, while all the new-jacks can soak up the rugged styles. 'Can it be that it was all so simple then?'-Slim
