

Blackalicious, 4/20 Live in Seattle

Blackalicious is a very good hip hop alternative duo and they are offering us now a DVD including an excellent concert, as well as interviews with **Gift of Gab** and **Chief Xcel**. The performance is at a top level for the sound as well as for the lighting and the general atmosphere there was at the venue. Gift of Gab raps in a spectacular way on the first track, "Alphabet Aerobics", which is a good way to create quickly a good atmosphere. There are no weaknesses and the 1 hour DVD includes enough material to be interesting without offering unnecessary stuff. Anyway, we can see in bonus a visit of the tour bus as well as the video for the track "Deception". So, the DVD is interesting from the beginning to the end and we can replay the entire concert on a regular basis without having to take all the night. The fans of good hip hop have to discover Blackalicious if it's not already done and this DVD will help to convince them of the quality of the product they have to offer. A very good choice!
