Bryon "Bizzy Bone" McCane, formerly of the morosely melodic Bone Thugs-N-Harmony, has gone through quite a lot to get to where he is today. As a child, he was abducted and molested, he began his current collection of ten offspring at the age of fourteen and has also admitted addiction to multiple substances. So will it be his revival through Christianity, his 2005 departure from Bone-dom or his half-decade dependence on Prozac that will save him? By the looks of this new DVD, Bizzy is not quite out of the woods just yet but seems to be getting a little closer.

Bizzy Bone: Live in Concert contains live footage from two separate concerts: one in Bizzy's hometown of Cleveland and the other from Pueblo, Colorado. Additionally, viewers get to experience Bizzy at his best--- freestyling and showcasing his wide-ranging vocal abilities while recording tracks. Bizzy clearly possesses what paved the way for The Thugs' Midwest hip hop infiltration in the 1990s. With his fast-paced styling and euphonious vocals, Bizzy Bone retains and expresses much of what made his former band so popular.

With that said, few but the hardcore Bizzy buffs or Midwestern hip hop aficionados will really appreciate sitting through two concerts of Bizzy Bone. The footage is a little amateurish and Bizzy's own sound is still just sprouting. The added tracks and behind the scene footage add a little something extra, yet there is little more to this DVD than some preliminary signs that Bryon McCane has the talent to keep his ball of fame rolling along. Still, it is unclear, whether he will break out into something more than just another break-off solo act.
