Rockers: It's Dangerous

MVD

Released more than 30 years ago, *Rockers* was a documentary on the Jamaican reggae scene that during its creation morphed into a story. The loose plot is enjoyable enough, but the magic is the music. With plenty of chopping reggae guitar and cool grooves galore, the soundtrack is perfectly infectious. The songs here are provided by such reggae masters as Burning Spear, Peter Tosh, and Bunny Wailer, among many other talented musicians. Gotta love this stuff. - *PP*
